PROFESSIONAL SUMMARY

Senior Software Engineer and AI-native developer with 7 years of experience designing, developing, and delivering scalable web, mobile, and data platforms. Strong full-stack background across Node.js, TypeScript, React, Java, Python, PostgreSQL, MongoDB, and AWS, with current experience building cloud-based data pipelines and serverless workflows for financial services. Skilled in agentic development with GitHub Copilot, Claude Code, Codex, Cursor, Amazon Q Developer, Codeium, MCP, and LLM workflows. Improved processing efficiency by 35%, reduced cloud infrastructure costs by 15%, and decreased deployment time by 30% through performance optimization, cloud engineering, and CI/CD improvements.

CORE SKILLS

- **AI-Native Development:** GitHub Copilot, Claude Code, Codex, Cursor, Amazon Q Developer, Codeium, MCP, generative AI, LLM workflows, agentic development
- **Backend:** Node.js, TypeScript, JavaScript, NestJS, Java, Spring Boot, Python, ASP.NET Core, REST, GraphQL, Kafka, AWS SQS
- **Frontend:** React.js, Next.js, React Native, TypeScript, Material UI, Tailwind CSS, Axios, React Query
- **Data & Databases:** PostgreSQL, MySQL, SQLite, MongoDB, Amazon DynamoDB, Redis, CosmosDB, Prisma, Mongoose, PySpark, HiveSQL
- **Cloud & DevOps:** AWS (Glue, Lambda, Athena, S3, Secrets Manager, EC2), Azure, Docker, Kubernetes, GitHub Actions, GitLab CI/CD, Grafana, Datadog
- **Architecture & Quality:** Microservices, serverless, event-driven architecture, monoliths, microfrontends, Clean Code, SOLID, TDD, automated testing, code review
- **Testing:** Jest, Mocha, Vitest, Pytest, Cypress, React Testing Library

PROFESSIONAL EXPERIENCE

Senior Technical Consultant / Senior Data Engineer

BRQ Digital Solutions

Nov 2025 — Present

São Paulo, SP, Brazil

- Design, maintain, and optimize cloud-based data platforms supporting mission-critical decisioning systems in financial services.
- Build scalable data pipelines and serverless workflows using AWS Glue, Lambda, Athena, S3, and Secrets Manager.
- Leverage FICO DMPS to support credit decisioning platforms, with emphasis on data integrity, reliability, performance, and production readiness.

Full-Stack Developer

Mobicity

Apr 2022 — Nov 2025

São Paulo, SP, Brazil

- Developed and maintained web and mobile applications with Node.js, React.js, RESTful APIs, MongoDB, and AWS services.
- Implemented method queuing and optimized Mongoose queries, improving data-processing efficiency by 35%.
- Integrated AWS services to improve application reliability, scalability, and uptime.
- Collaborated with cross-functional teams to deliver features ahead of schedule and improve client satisfaction.

Technology Consultant

Management Solutions

Apr 2021 — Apr 2022

São Paulo, SP, Brazil

- Parameterized and validated decision-engine policies for banking projects using JavaScript, Python, PySpark, HiveSQL, CosmosDB, and Azure Databricks.
- Optimized ETL processes, reducing data-pipeline execution time by 30% and improving SLA compliance.
- Developed technical documentation and facilitated training, reducing onboarding time for new developers by 20%.
- Collaborated with stakeholders to align business requirements with technical delivery.

Founder & Digital Marketing Specialist

Self-Employed

Oct 2020 — Mar 2021

São Paulo, SP, Brazil

- Founded and managed a digital agency focused on traffic management, e-commerce optimization, and web development for local businesses.
- Executed Google Ads and social-media campaigns, achieving up to 200% ROI for clients.
- Delivered customized websites and landing pages that improved conversion rates and brand visibility.

Technical Support Intern

Apr 2019 — Sep 2020

Permute Franchising LTDA

São Paulo, SP, Brazil

- Developed and maintained ASP.NET Core backend systems integrated with HTML, JavaScript, jQuery, and Bootstrap frontends.

EDUCATION

- **B.Sc. in Computer Science** — Universidade São Judas Tadeu | 2018–2021
- **Information Technology Program** — Rocketseat | 2022–2023
- **Web Development, ASP.NET, Node.js, React.js & React Native** — Impacta Tecnologia / Rocketseat | 2019–2022

CERTIFICATIONS

- **Node.js Foundations** — Rocketseat, 2024
- **React Foundations** — Rocketseat, 2026
- **React Native Foundations** — Rocketseat, 2025
- **Interfaces, Navigation and Local Storage** — Rocketseat, 2025
- **Scalable Microservices** — Rocketseat, 2025
